

## 12 policy priorities to strengthen and enhance your super

Super Members Council (SMC) asked all political parties and independents to commit to our 12 policy priorities to strengthen and enhance the super system for all Australians.

These priorities have three key objectives:

1. Safeguard the system fundamentals that make super a world-envied success
2. Improve the experiences of super fund members in their working lives and retirement, and
3. Make super fairer for those who don't get the full benefits of the system.

You can read more about our policy priorities and super [on our website](#).

### Response from Andrew Wilkie MP, independent Member for Clark

I am supportive of reforms to Australia's superannuation system to better support Australians in their retirement. I am pleased to confirm that I support each of the 12 priorities identified in your letter and will commit to advocating for each with whoever forms government, should I be re-elected.
